# CONGRATULATIONS!

You completed your first N-of-1 study!

You have unlocked 2 new study lengths.  
If you would like to continue your  
experiment, you now have the option  
to re-enroll and choose how long your  
study will last (5, 15 or 27 days).

adjusted onboarding screen; if participant consents to secondary study w/ self-selected study length (this replaces initial planning screen)

# Planning

You will choose the duration of the study, beginning with a baseline period during which you will not consume any caffeine or L-theanine but will be prompted to complete the daily cognitive assessments. After the baseline period, you will alternate between the two treatments and continue taking the daily assessments.
